

**IMPORTANT AMMUNITION NOTICE
FOR THE BOND ARMS BULLPUP
AND BOBERG XR9S by BOND**

Thank you for buying a BOND ARMS BULLPUP or BOBERG XR9S by BOND. This notice applies to both firearms, and for simplicity in this notice we refer to both as the BULLPUP.

The BULLPUP is one of the most unique and cool semi-autos on the market. Because the **BULLPUP operates differently** from almost every other firearm available today, there are also some **differences in the types of ammunition** that work best with the BULLPUP.

WARNING: USE OF AMMUNITION NOT RECOMMENDED BY BOND ARMS MAY RESULT IN A MALFUNCTION. YOU SHOULD NOT BUY THE BULLPUP IF YOU EXPECT TO USE ANY AND EVERY TYPE OF 9MM AMMUNITION. YOU MAY CANCEL YOUR ORDER AT ANY TIME BEFORE YOUR BULLPUP HAS BEEN SHIPPED TO YOUR DESIGNATED FFL DEALER AND YOUR MONEY WILL BE PROMPTLY REFUNDED.

To get its much longer barrel in a short pistol, the BULLPUP uses a patented Reverse Feed System that pulls the round backward from the magazine instead of pushing it forward like current semiauto pistols. This backward movement requires ammunition that has well-crimped bullets, because rounds with insufficient crimp can separate the case from the bullet, causing a jam.

We have done extensive testing, and have identified a wide range of readily available ammo that works well in the BULLPUP. Most hollow-point ammo is well-crimped and works reliably, and many brands of “practice” ammo also work well. We have attached a list of brands and types of ammo that we have found to be appropriate for the BULLPUP, and we will keep the list updated on our website. If you decide to try brands or types of ammunition that are not on our recommended list, we ask for your help by giving us feedback on the ammunition you use so we can pass that information on to other BULLPUP owners. If you use your BULLPUP for self-defense, use only ammunition recommended by Bond.

THANKS FOR YOUR HELP, AND HAVE FUN WITH YOUR BULLPUP!

Boberg/Bullpup Approved Ammo List

Self-Defense

Hornady Critical Duty 135 gr. FlexLock
Hornady Critical Defense 115 gr. FTX
